

John Rey Baliguat

Technical Support | E-commerce Support | Customer and Administrative Operations | Web Systems

Philippines | Remote | baliguatjohnrey91@gmail.com | john-rey-portfolio-wsj7.vercel.app

PROFESSIONAL SUMMARY

Bachelor of Science in Information Technology graduate with approximately two years of hands-on web, hardware, and technical project experience. Supports users, customer and administrative workflows, websites, business systems, hardware, printers, quality assurance, databases, deployment, and API integrations. Open to e-commerce support roles involving storefront, product, order, and customer operations. Licensed real estate salesperson with light industry experience in property, inquiry, and lead workflows.

CORE SKILLS

Technical support and troubleshooting | Customer assistance by email and chat | Administrative and operations support | E-commerce storefront, product, and order support | Business system familiarization | Record maintenance and documentation | Issue reproduction and escalation | Website and system maintenance | Software, printer, and peripheral installation | Basic hardware setup and troubleshooting | QA testing and workflow verification | Database-backed workflows | Responsive and mobile testing | REST API integration

RELEVANT EXPERIENCE

Independent Web Developer and Technical Support | Project-based | Philippines and remote | Current

- Build, maintain, test, troubleshoot, and deploy websites and database-backed systems; support hosting and REST API integrations.
- Work with client requirements, administrative processes, customer journeys, forms, records, responsive interfaces, and production fixes.
- Support software, computer hardware, printer, and peripheral setup; investigate issues systematically and verify changes.

Hardware Technician | Earlier professional experience

- Diagnosed hardware problems, performed practical maintenance, and used step-by-step root-cause isolation to restore reliable device operation.

Information Technology OJT and Technical Support | Don Mariano Marcos Memorial State University - Mid La Union Campus

- Assisted users with common technical concerns, including internet connectivity issues.
- Developed and deployed the DOUS E-Borrower's Card System for student and administrator library workflows.

SELECTED PROJECT EXPERIENCE

Triple Vision Realty Platform | Real estate website and admin system

- Supported property listings, buyer inquiries, administrative records, mobile lead workflows, and agent attribution.

Milk Tea E-commerce Experience | Self-directed portfolio concept

- Planned a responsive product, pickup or delivery, cart, and checkout journey for a fictional milk-tea storefront.

Chuchu Milktea Loyalty Kiosk | Client loyalty system and Loyverse API integration

- Built and supported a tablet-first loyalty flow; investigated receipt sync, browser polling, claim windows, and kiosk operation.

DOUS E-Borrower's Card System | Academic library system and OJT project

- Built and deployed a student and administrator borrower portal; tested user journeys and supported common IT concerns.

TECHNICAL SKILLS

HTML | CSS | JavaScript | PHP | MySQL | PostgreSQL | Next.js | Tailwind CSS | REST APIs | Git and version control | ChatGPT and Claude (personal AI tools) | Hardware, printer, device, and internet troubleshooting
